Country Lands for Volunteers.

The undersigned has received the forms and specific instructions from Washington City, for procuring the Land Warrants or Scrips for Volunteers entitled to the same; and having printed forms, he is enabled to attend to the same on short notice, and at a low fee.

GEORGE A. CHAPMAN.

To Correspondents.

S. W. C. Hamilton. We have made an arrangement by which we think you will receive your papers several days earlier, sent to the office at Jefferson. If you are not so near, we will then alter them as you propose, on advancement of the same.

J. K. East Germantown. We are at a total loss to account for the non-receipt of the papers of last week at your office; and especially as the package was received. Owing to a large number having been destroyed in the mail, we have but a perfect copy left on hand. We will make it up, however, and endeavor to prevent such casual losses in future.

R. W. Jefferson. Will endeavor to meet your wishes regarding the mails.

J. C. F., North Salem. Will do the same for our friends in your vicinity.

APRENTICES WANTED.—We will take two more apprentices, if application be made. Lads about 14 to 15 years old, of steady and correct habits, and able to read and write, will have the preference.

The reason why a portion of our subscribers at Leesville, Freedom, Fair Play, and Black Creek, did not get their last papers, was probably owing to high waters; as several packages were returned to this office, completely saturated with water, and nearly destroyed. We have replaced and forwarded all we have on hand of that number.

We said "high waters." If it has been as dry on the route these papers travelled as it has been here, we cannot account for "high waters;" and we are rather inclined to think they were destroyed by the carelessness of the mail carrier. We will make inquiry into the matter, at all events.

IMPROVEMENTS in the streets, side-walks and buildings of this city are progressing more rapidly and to better advantage than any former season has witnessed. This in some degree is in anticipation of the arrival of the railroad locomotives; but a new spirit seems to have animated our citizens and stimulated them to improvement without direct reference to the anticipated effects of the completion of the road. All hands feel the better for it, let the cause be what it may; and we shall all be rewarded too, for the good thus done. When all our streets shall have been gravelled, our side-walks gravelled or paved, and our streets lined with shade trees, we shall have the handsomest town in the State to say the least. This will be profitable in every way as well as pleasant to us;—we shall be better citizens and better Christians.

We wish, by the way, as we always have done, that our diagonal streets, or at least portions of them, could be vacated and the lots which they intersect and spoil, made square. That would be a great, very great improvement, the importance and value, as well as the growing impracticability of which, the longer it is delayed, is manifest to us. It would cost comparatively little now, and their vacation is comparatively unimportant. In five or ten years, the propriety of it will be plain to all; but then it may be impracticable.

Proved.

During the late canvass we published a short communication from a friend at Bloomfield, in the 6th district, stating, among other things, that Dunn, the whig candidate for Congress, had denounced the *Louisville Journal*, &c. The editors of that paper subsequently stated that they had written to Dunn on the subject, and that he had pronounced the statement of our correspondent a lie. It is doubtful whether Dunn gave those editors authority to make such a denial. But whether he did or not, the following evidence will show that the statement of our correspondent was not a lie, and that if there is falsehood anywhere it lies between Dunn and the editors of the *Louisville Journal*.

It may be proper to observe, that we are informed in relation to the signers of these statements, that George B. Stalcup, a respectable farmer, is a whig and a subscriber to the *Louisville Journal*; E. West, a whig merchant of Bloomfield, also a subscriber to that paper; and that Stephen H. Lockwood is the whig representative elect of Greene county. We are also informed that "any quantity" of similar certificates can be obtained. We think these are sufficient to sustain every thing essential about our correspondent's statement. If the *Louisville Journal* want more, it can have them; if not, it will remain want.

I hereby certify, to the best of my recollection, that on the 23d of June last, between G. B. Stalcup, W. C. Foster and G. W. Carr, Mr. Foster charged the leaders of the whig party with opposition to the present war with Mexico; and quoted from the *Louisville Journal*, to sustain his position. G. B. Stalcup, in his reply, made several very rash expressions about the *Louisville Journal*; among others, that he never had patronized the *Louisville Journal*, that he never had been a reader of it, and that he did not wish to be patronized or read it, and that he did not wish to have it patched on his back.

G. B. STALCUP.

This is to certify, that on the 23d of June, 1847, I was at P. Point Commerce, at the speaking of G. B. Stalcup, and to the best of my recollection the said Dunn stated that he had not been a subscriber to the *Louisville Journal*, nor ever expected to be, nor was not accountable for what it said.

E. WEST.

BLOOMFIELD, GREENE COUNTY, August 23d, 1847.
 This is to certify, to the best of my recollection, that on the 23d of June last, at Point Commerce, in said county, that George B. Stalcup stated that he was not accountable for the statements of the *Louisville Journal*, and that he did not patronize it, and that he did not wish to be patronized or read it, and that he did not wish to have it patched on his back.

STEPHEN H. LOCKWOOD.

POINT COMMERCE, Ia., August 25th, 1847.
 This is to certify, that at a political discussion at this place, on the 23d of June last, between G. B. Stalcup, W. C. Foster and G. W. Carr, Mr. Foster charged the leaders of the whig party with opposition to the present war with Mexico; and quoted from the *Louisville Journal*, to sustain his position. G. B. ABRAHAM SPAINOWER.

W. C. BOYS.

We invite attention to an article from the "Bedford Sun," relative to the colors of the 2d regiment of Indiana Volunteers. It contains interesting information on the subject, and should be copied by our contemporaries. Time is slowly redeeming the brave rank and file of that regiment from the slanders visited upon it.

We learn, unofficially, that a requisition has been made upon the State for another regiment of infantry. Several companies are anxiously awaiting orders, who desire to try their metal with the regulars. All they want is half a chance.

The Washington Union contains a list of lands which the United States have acquired in the several States recently, and which are now offered for sale. A portion of these lands, lying in this State, are advertised in another column of this paper.

It is said that Napoleon was accustomed to remark, that when he required any great head-work to be performed, he chose an individual with a long nose. "If you have a long nose," said he, "it will almost invariably find a long nose and a long head to go together."

THE WHIG HOUSE OF REPRESENTATIVES AND THE WAR.

—We find the following in the National Intelligencer of the 17th inst.:

Let no one understand us, when exulting at the certainty of a Whig majority in the House of Representatives, as exulting at the majority making any attempt to "stop the wheels of the Government" by withholding either the necessary appropriations for the support of the war, or refusing to provide the means for moving any expenditures which have been already authorized by law. Quite the contrary. Scrupulous regard for the public faith, and for the obligations of contracts generally, is a cardinal principle in Whig creed. The Whigs will, we hope and trust, do everything they can to bring this edifice with Mexico to a honorable close. But, with reference to the public credit, for whatever purpose pledged, we have no doubt that it is fortunate, even as regards the Administration itself, that the Whigs are not entirely ascendant in the body which has original jurisdiction over the ways and means. They will doubtless hold the Administration, in every department of it, to a rigid accountability; they may refuse to lay taxes on the necessities of life, as proposed at the last session, that foreign luxuries may come into this country free of duty, but, should the war with Mexico be prolonged until the meeting of Congress, (which Heaven forbid!) other means compatible with national honor, and the necessities of the supplies will be found to put a stop to the war.

The above appears in the *Indiana Journal* of the 30th, and we suppose with approbation. The Washington Union seems to regard the remarks of the Intelligencer, as suggestive that the Whigs have the power of crippling our Government, by refusing to vote for supplies, as C. B. Smith, McLaughlin, and others did during the last Congress; and that it is hypocritical in pretending to deprecate such a course. Other papers take the Intelligencer to be in favor of supplying supplies; and with this understanding the N. Y. Evening Post makes the following comments:

THE WHIGS AND THE WAR.—Notwithstanding all that the Whig prints have said in condemnation of the war, and the strong resistance they have made to all the efforts to raise men and money to carry it on, they are now about to take the ground of supporting it. This sudden change in their conduct appears to have been occasioned by the prospect that there will be a Whig majority in the next House of Congress.

The logic by which this conduct is justified is of that peculiar kind called "Buckskin." For instance, the war is unjust and atrocious and should be resisted with all our efforts, said the Whig members of the last Congress, and the party press during the past year. But now the Whigs have a majority in the House, and although the injustice and atrocity of the war continue unchangeable, yet we must change our conduct and support the Administration in conducting the war; and the excuse for this change of conduct is that "if a Whig Congress refuse to vote supplies it will make the war popular with the people," and consequently the Whigs would be inevitably defeated at the polls, and lose power and place.

Such is a specimen of the reasons put forth by the Whig prints at Albany and Washington, for a change in their conduct. It will be noticed that their past opposition to the war is ostensibly founded on its moral wrongfulness, and consequently it was to be resisted at every step. Now, however, without any even pretended change in the character of the war, but in consequence of a slight change in their relations in Congress, they propose a change in their conduct.

Was there ever a more shameful spectacle than is presented by those men who propose to measure moral right and wrong by their party successes. Such actions as these expose most clearly to the nation who are the mere "panders" to place and power, and who are ready to trample under foot the highest principles of man's nature for a little "brief authority." We make the following extract from the Albany Journal, noticing an article in the National Intelligencer:

The words are weighed with the usual forethought and judgment of the editors of the Intelligencer. Their import is clear. The ground taken is, we believe, broad enough for whigs to stand on. Though detesting the war and those who brought the country into it, we should deeply deplore any movement from the Whig side of Congress, designed to bring to a compromise close by a refusal to vote men and money. Let us give the Administration the means they ask for to carry on the war, but hold them responsible for all the consequences of the war. The Whigs would be bringing up this Administration of making even this war popular with the people. That way is for a Whig Congress to refuse to vote supplies. Such an act would set Polk on his legs. There would be no more of the Whig side of Congress, designed to bring to a compromise close by a refusal to vote men and money.
